

Release Plan

Next Beer

Team: Next Beer,

Release date 10/4/16,

First issue

High Level:

Have a mobile app that teaches the user about beer and beer tasting

Have a mobile app that can recommend a new beer to a user based on user preferences

Have a website that allows a user to manager their profile

User Stories for Release:

Sprint 1:

User Story 1: As a user I'd like a mobile app that I can log into and make an account

(Story Point: 13)

User Story 2: As a user I'd like to be able to view some general information about beer on the mobile app

(Story Point: 13)

User Story 3: As a user, I'd like to have a website to log into to manage my account

(Story Point: 5)

User Story 4: As a user, I'd like to be able to tell the app my beer preferences

(Story Point: 8)

User Story 5: As a user, I'd like to have a list of beers shown to me that I might be able to drink

(Story Point: 13)

User Story 6: As an administrator, I would like an easy way to input beer data from the website

(Story Point: 13)

User Story 7: As a designer, I would like mockups for the app and website

(Story Point: 5)

Sprint 2:

User Story 7: As a user to have a fine tuned way for me to enter my beer preferences in the mobile app

(Story Point: 8)

User Story 8: As a user I'd like to see my beer preferences visualized on the mobile app

(Story Point: 13)

User Story 9: As a user I'd like to see my beer preferences visualized on the website

(Story Point: 8)

User Story 10: As a user, I'd like to see visualizations of beer profiles on the mobile app

(Story Point: 8)

User Story 11: As a user, I'd like to see visualizations of beer profiles on the website

(Story Point: 8)

User Story 12: As a user, I'd like to have the mobile app and website be connected to each other

(Story Point: 5)

User Story 13: As a user I'd like to have a larger list of beer available for me to view on the mobile app and website

(Story Point: 8)

User Story 14: As an administrator, I'd like to have at least 50 beers in the database

(Story Points: 5)

User Story 15: As a user, I'd like to receive a better beer prediction when using the mobile app.

(Story Points: 8)

User Story 16: As a user I'd like to be able to use a QR scanner in the app.

(Story Point: 8)

Sprint 3:

User Story 17: As a user, I'd like a good looking mobile app to use

(Story Point: 13)

User Story 18: As a user I'd like a good looking and functional website to use to manage my account

(Story Point: 8)

User Story 19: As a user, I'd like to be able to scan a QR code to let the app know what beers are available for me to drink

(Story Point: 8)

User Story 20: As a user, I'd like to be able to have beers that I like affect my flavor profile.

(Story Point: 5)

User Story 21: As a user, I'd like to be able to save the beers I have tried and liked and disliked.

(Story Point: 8)

User Story 22: As a user, I'd like to be have visualizations of beer profiles of beers I liked in the past

(Story Point: 5)

Product Backlog:

User Story 7: As a user to have a fine tuned way for me to enter my beer preferences in the mobile app

(Story Point: 8)

User Story 8: As a user I'd like to see my beer preferences visualized on the mobile app

(Story Point: 13)
