

Sprint 1 Report

Next Beer, Team: Next Beer, Date 10/19/16

Actions to stop doing:

- Stop taking on large task commitments
- Break up stories in to finer grain tasks.

Actions to start doing:

- Set better deadlines for completed work and progress
- Create calendar for scrum meetings
- Check Slack more often for updates
- Check in with other team members more often
- Incorporate more engineering processes into our workflow

Actions to keep doing:

- Communicating on slack
- Maintaining team google drive
- Having good standup meetings
- Having good team communication and delegation of tasks

Work completed/not completed:

Work completed:

- (4) Set up and devise database
- (3) Link input page into Database/Backend
- (3) Determine defining characteristics of what differentiates beers
- (1) Create landing page for website
- User Story 3: As a user, I'd like to have a website to log into to manage my account (Story Point: 5)
- (1) Connect with DB
- (2) Create user login functionality
- (4) Begin to populate database with selected beer information
- (4) Create layouts for beer information on mobile app
- (2) Implement a basic beer data input page on website for these characteristics
- (3) Create landing page for mobile app
- (2) Create a user flow diagram to figure out what we need for our app and website
-

Work not completed:

- (2) Think of good questions to ask user to create relevant user taste profile (mobile)
- (5) Create and add static content for app
- (2) Create user login functionality (mobile)
- (4) Create account creation page and link with DB (mobile)
- (3) Using a wireframing tool, create the blueprints of the app and website
- (3) Create questionnaire for mobile app- maybe use google form plugin? (mobile)
-

Work completion rate:

User stories completed: 13

Total number of estimated ideal hours completed: 42

Total number of days during the prior sprint: 16
User stories/day: 0.3
Ideal work hours/day: 3
